Lesson 1: SPSS Assignments 1-7

Purpose

Dr. Kim Barchard has created a number of SPSS homework assignments for her various classes. You will complete the latest versions of these assignments, which are available on her course websites. In each assignment, if it says that the data is available on Dr. Barchard's website, this means that the data is available within the website for that course.

When you complete each assignment, email the required materials to Dr. Kim Barchard at Barchard@unlv.nevada.edu. Usually, you will be required to email her two files: the SPSS output file and the SPSS syntax file. In your email, also state what difficulties you had completing this assignment.

Prerequisites

No prerequisites are required to start this lesson

Assignment 1: Introduction to SPSS

Location: <http://faculty.unlv.edu/barchard/210/210fall07/210fall07.htm>

File name: Core 2 Introduction to SPSS

Assignment 2: Syntax Windows

Location: <http://faculty.unlv.edu/barchard/210/210fall07/210fall07.htm>

File name: Core 4 Syntax for SPSS 15.0

Assignment 3: Checking Your Work

Location: <http://faculty.unlv.edu/barchard/712/712Spring08/P712SP08.htm>

File name: Background Labs: Lab 3: Checking your Work

Note: This is a different website!

Assignment 4: Recoding

Location: <http://faculty.unlv.edu/barchard/210/210fall07/210fall07.htm>

File name: Core 5 Recoding for SPSS 15.0

Assignment 5: Independent Sample T-test

Location: <http://faculty.unlv.edu/barchard/210/210fall07/210fall07.htm>

File name: Core 9 Independent Sample t-test for SPSS 15.0

NOTE:: this assignment uses different data than the previous assignments.

Assignment 6: Correlation

Location: <http://faculty.unlv.edu/barchard/210/210fall07/210fall07.htm>

File name: Core 10 Correlation for SPSS 15.0

Assignment 7: Getting Data into SPSS

Location: S / BarchardsLab / Lab Meetings and Training / Workshops on SPSS

File name: Getting Data into SPSS 1.doc

NOTE: This is a different location!
